Ladies/Gentlemen:

The February 2010 updated version of the manual for the Lubricant Test Monitoring System (TMC Memorandum 94-200) is now available on the ASTM Test Monitoring Center web site (<ftp://ftp.astmtmc.cmu.edu/docs/ltms/ltms.pdf>). The current revision includes L-37 statistics for reference oils 152-1 and 155 on VIL500/P4LT813 hardware. Also included are revisions to the HTCT sections so that a severe severity Shewhart alarm on the discrimination oil does not require another calibration test to be run.

You will receive a notification the next time the LTMS manual is updated. Please direct any questions to me at (412) 365-1030 or email to fmf@astmtmc.cmu.edu.

Sincerely,

Frank M. Farber
Administrator
